## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee and Citizens  
of Baldwin:

I am presenting for your consideration the financial report of your schools for the year 1942-1943.

Three changes have been made in the teaching force this year. Mrs. Ida Ward and Mrs. Muriel Hoyt have been placed in charge of the Grammar Grades and Primary Grades, respectively, at the West Baldwin School, and Mrs. Retha Seelye, of Cornish, has been placed in charge of the Burnell School. Baldwin is indeed fortunate to have such well prepared and experienced teachers. Every effort should be made to retain our capable teachers.

Hot lunches are being served at the West Baldwin, Burnell and North Baldwin Schools, and the teachers report an improvement in the work done by the pupils in the afternoon sessions at these schools. Surplus com-

modities are being received at the Burnell, West Baldwin, North Baldwin, and East Baldwin Schools. Penny milk is being served at the East Baldwin School and is very beneficial to the children.

We must all strive to keep our schools at a high level during the critical years that lie ahead. As we train our children today, so will democracy be tomorrow.

In closing, I wish to thank the citizens of Baldwin for their coöperation, without which our school system could not be successful.

The following budget is respectfully requested for the coming year:

Elementary schools,	\$6,600.00
High school tuition,	2,000.00
Music,	400.00
Books and supplies,	350.00
Repairs,	150.00
Lights,	70.00

Respectfully submitted,

LINDON E. CHRISTIE,

Superintendent of Schools.

## REPORT OF SUPERVISOR OF MUSIC

---

To Mr. Lindon Christie, Superintendent of Schools.

I submit the following music report in the schools of Baldwin:

Again it is my privilege to report satisfactory gains in the music department. The splendid coöperation of the teachers has made this possible.

All the grammar grades are singing two-part songs. At North Baldwin, with some eighth-grade boys singing bass, three-part songs are being used. Rhythm exercises are given in all the grades.

Music appreciation lessons are given once a month, by means of the Victrola with recordings. This involves the art of listening. The pupil also learns the story of the recording and its composer.

During the fall term, notebooks were made on the life of Stephen Foster. This winter term, a Patriotic Album is being assembled.

Two Victrola records for rhythm-band work and a small set of books have been purchased this year with a balance on hand from the music account. One more set of books is needed, and some of the organs need adjusting. The department would appreciate an appropriation for another year.

Parents and friends are cordially invited to visit the music classes. To the teachers and Mr. Christie, please accept my thanks for your fine coöperation.

Respectfully submitted,

FLORA R. CARPENTER,

Supervisor of Music.

## REPORT OF PUBLIC HEALTH NURSE

---

The past year has been an encouraging year in Baldwin. Although plans to form a town health committee to interpret the public health nurses' services to the community and assist her in health programs has not yet worked out, due to the difficulty of travel. Several community health programs held were successful due to lay volunteers and the coöperation of the Farm Bureau.

One Child Health Conference was held, at which children under six, not under regular medical care, were examined by a physician and offered immunization against smallpox and diphtheria. Follow-up visits have been made to help the family carry out the recommendations of the physician.

This summer the town sponsored an immunization program, at which vaccination against smallpox and immunization against diphtheria was offered to anyone desiring it. The response to this was most gratifying. This program not only provided immunization to many, but also stimulated others to be immunized by their family physician.

In addition, the teachers have been visited so that the nurse may help them with their health problems and to make home visits to children with suspected health problems when indicated.

The nurse has continued her home visiting to expectant mothers to urge early medical care, and help them with their preparations; to mothers to infants and preschool children to urge medical supervision of the well child, to urge immunization, and to urge correction of defects so that they may enter school in the best possible health.

The control of communicable disease, always an important health measure, is again becoming vitally important. The public health nurse has made visits to help in locating communicable disease and to help in planning for the care of the patient.

As there are several children in Baldwin who receive the orthopedic services of the Crippled Children Clinic conducted by the State Bureau of Health, home visits have been made to follow up the recommendation of the Clinic.

I wish to express my appreciation also to all other individuals who have assisted with the program, especially the busy physicians. It is to be hoped that the health work will be increased during the coming year.

MISS ELEANORE M. IRISH,

Public Health Nurse.
